2.0 The summary of the foundation of the MoC – **Tourism 'Hos Mesra'**

As one of the Cluster Schools in Malaysia, Sekolah Menengah Sains Tuanku Syed Putra (SMSTSP) has chosen a 'niche area' of tourism which is named 'Hos Mesra'. Thus, as a part of the niche area, the school has planned several programmes to be performed to achieve the objectives desired. 'Hos Mesra' is also planned to realise Malaysia's government's aspiration of '1Malaysia', through tourism in educational institutions. This programme is divided into two components, namely domestic tourism and international tourism which encompasses the ecotourism, agro tourism and also cultural heritage.

3.0 The impacts of the programme 'Hos Mesra'

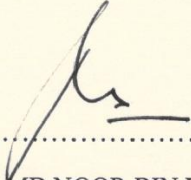

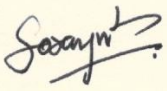

The students of Sekolah Menengah Sains Tuanku Syed Putra, Perlis, will be able to nurture and develop their skills in hospitality and entrepreneurship with the help

from the staff of Politeknik Tuanku Syed Sirajuddin, Arau and teachers of Princess Chulabhorn's College, Satun.

3.1 Consequently, some activities which will involve all three institutions are designed to give opportunities to the students to apply and enhance their knowledge and skills in their lives, and ultimately practice them at the international level. Among the activities planned are:

- i) Trainings of Skills and Knowledge Development
- ii) Facilities for trainings
- iii) Tourism Services

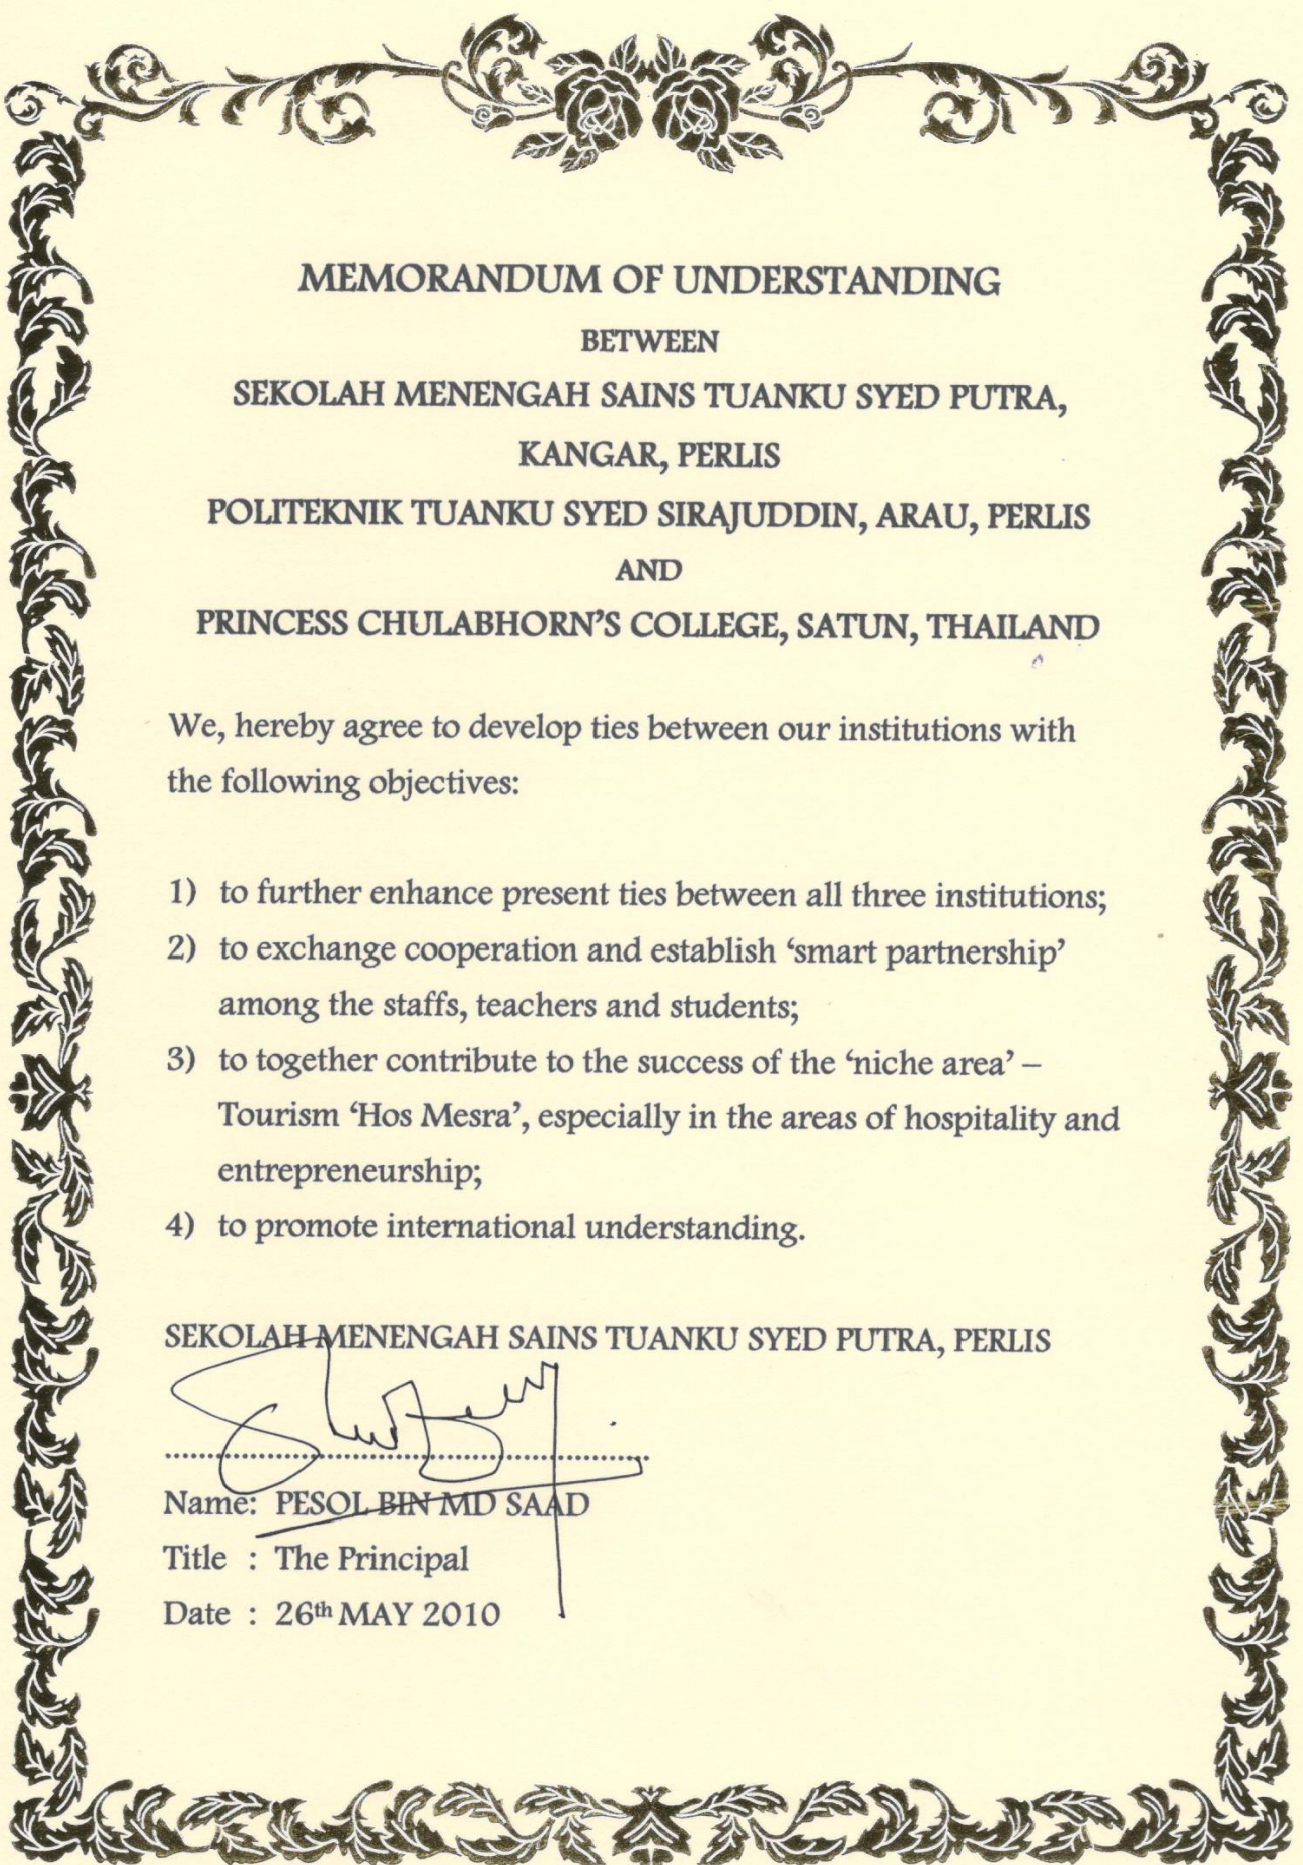

4.0 SMSTSP as the primary initiator to the MoC hopes that all programmes or activities that are planned, would in return benefit all parties involved.
